# **B.** Providers

# **B1. Key terms**

This section explains key terms you'll see in our Behavioral Health Directory.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, supplies, prescription drugs, equipment, and other services.
  - The term "providers" also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and supports
  - Providers that are a part of our network are called "network providers"
- **Network providers** are the providers that have contracted with us to provide services to enrollees of AmeriHealth Caritas DC. The providers in our network will bill us directly for care they give you. When you see a network provider, you will pay nothing for covered services.
- A Primary Care Provider (PCP) is a provider who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time. Your PCP will help you know when you need to see a specialist, though a referral from your PCP is not required. Referrals are not required to see any specialist who is part of our provider network.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
  - Oncologists care for patients with cancer
  - Cardiologists care for patients with heart conditions
  - Orthopedists care for patients with certain bone, joint, or muscle conditions
