Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon  in the top right banner on the home page. Additional information regarding notification settings can be found in the Request For More Information (RFMI) chapter.

The screenshot shows the NantHealth NaviNet home page. The top navigation bar includes the NantHealth logo, 'NaviNet', and menu items for 'WORKFLOWS' and 'HEALTH PLANS'. In the top right corner, there is a bell icon for notifications, a help icon, and a user profile icon. A red box highlights the bell icon. Below the navigation bar, there are three support-related buttons: 'Top Support FAQs', 'Support Videos', and 'Contact Support'. The main content area features a 'COVID-19 Resources & Information' section with a blue background and a globe image, and a 'covermymed' advertisement for 'CORONAVIRUS The Science' with the text 'Complete PA Requests up to 3x Faster with Drug Authorizations'. An overlay window titled 'No Notifications Available' is open, showing a large bell icon and the text 'To choose which types of notifications you would like to receive, use your Activity Settings'. The 'Notifications' tab in the overlay is circled in red.

4 AMENDING AN AUTHORIZATION

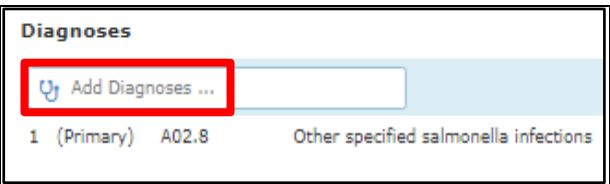

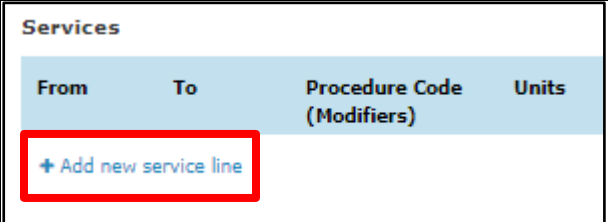

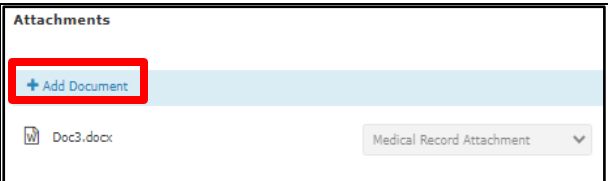

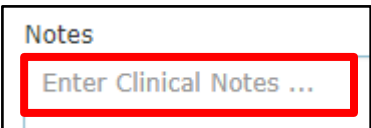

Amending an Authorization Request

Amending a request is the process of extending existing services **or** requesting another service on the same authorization. Each time an amendment is made the note character limit will be reduced. Amending is only available to requests that have been approved or partially approved by the health plan. The maximum number of services that can be added to an authorization is 15.

	<p>When making an amendment the user can add diagnoses, add services, add notes (if the maximum character limit has not been exceeded) and add documents.</p>

5 SEARCH FOR AN EXISTING AUTHORIZATION

Search for an Existing Authorization

Search for an Existing Authorization (also known as Authorization Inquiry) is a way to search for authorizations that may not have been initiated in NaviNet, for example they may have phoned, faxed, or created in Jiva.

Step	Action
1.	<p>Providers will only see authorizations/requests for members that are under their care. To search for an existing authorization select Medical Authorizations under Workflows for this Plan.</p> <div data-bbox="240 394 634 491"><p>Workflows for this Plan</p><p>Medical Authorizations</p></div>  <p>The screenshot shows the NantHealth NaviNet interface. The top navigation bar includes 'NantHealth NaviNet', 'WORKFLOWS', 'HEALTH PLANS', and 'ADMINISTRATION'. The main content area is titled 'Medical Authorizations: AmeriHealth Caritas'. A red box highlights the 'Authorizations' tab. Below it, a '+ Create New Authorization' link is visible. A red box highlights the 'Search for Existing Authorization' section, which contains the following form fields:</p> <ul style="list-style-type: none"><input type="radio"/> Requesting<input checked="" type="radio"/> ServicingServicing Provider: Select Group/Facility ... 7 REQUEST FOR MORE INFORMATION (RFMI)

Request for More Information (RFMI)

Request for More Information (RFMI) is a feature that allows the health plan to request specific additional information to the provider if needed. Providers will only be able to have the RFMI ability for authorization requests that are pending or approved that are created in the NaviNet Provider Portal. Providers will be able to add notes and/or upload the documents in NaviNet Provider Portal for the pending authorization requests via the 'more information required' screen.

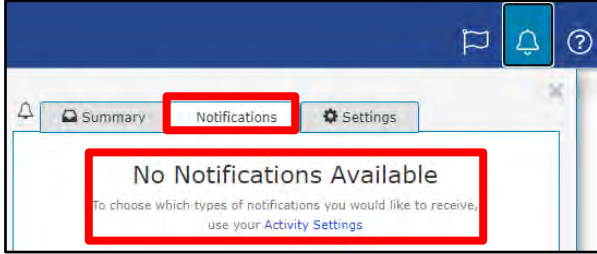

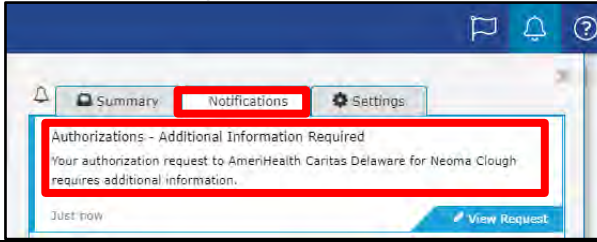

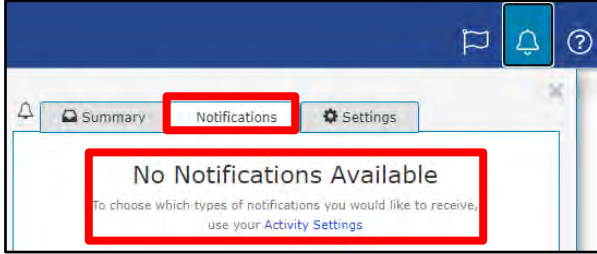

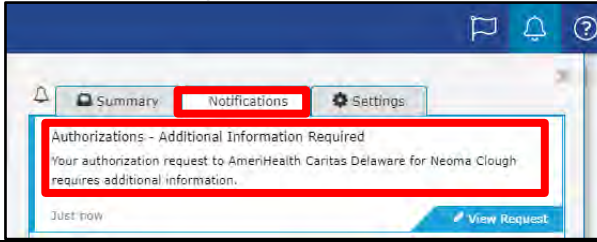

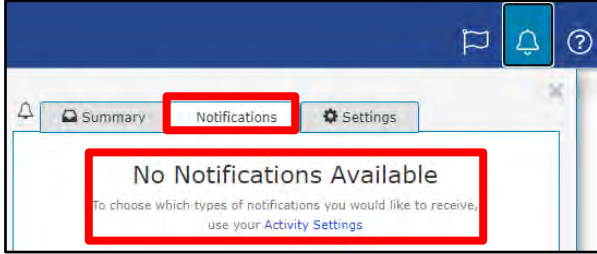

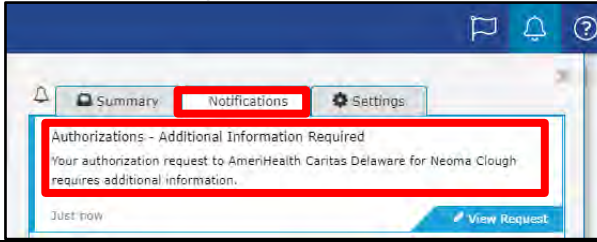

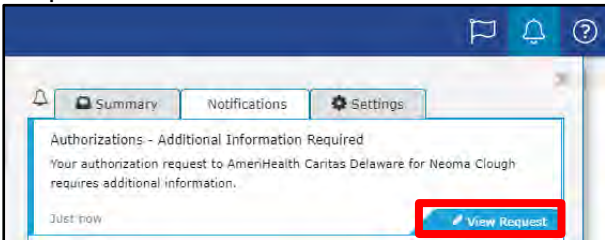

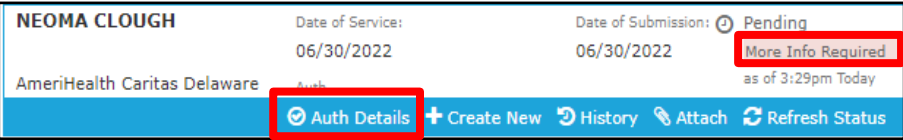

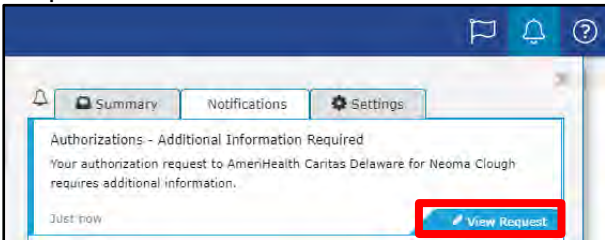

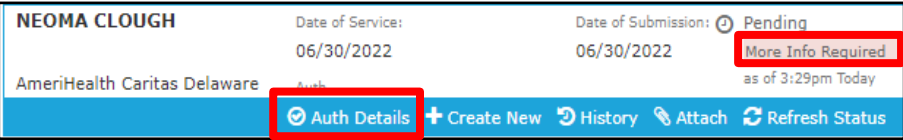

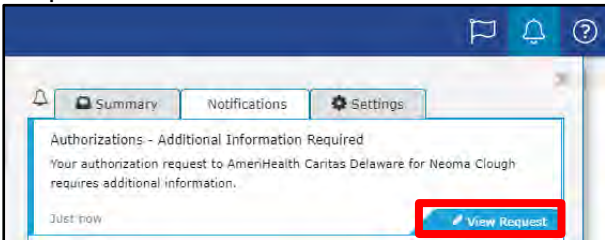

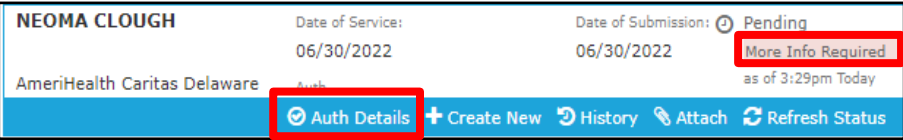

Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon in the top right banner on the home page. It is important to note that notifications related to RFMI is not an immediate process. There is a slight delay as information travels from system to system.

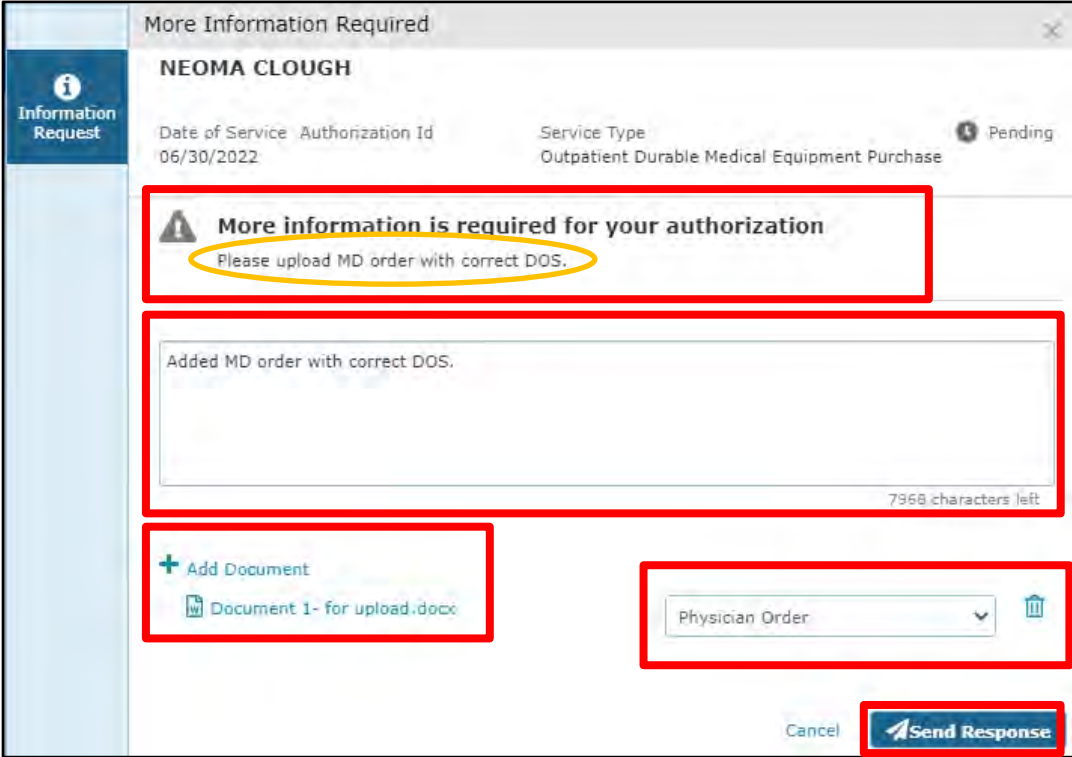

In NaviNet, users can opt to receive notifications whenever a request for additional information is requested from the health plan. Notifications can be managed under settings which is found when the bell icon is selected.
